

Email Settings Changed

## Email Settings Changed

The settings for the you@yourdomain.com were changed

You get an email asking you that your security settings were changed and that you need to apply these changes. Your domain name appears as it should and all looks OK.

What should you do?

--

Dear user of the michael-george.uk.com mailing service!

We are informing you that because of the security upgrade of the mailing service your mailbox (you@yourdomain.com) settings were changed. In order to apply the new set of settings click on the following link:

[http://yourdomain.com/owa/service\\_directory/settings.php?email=you@yourdomain.com&from=yourdomain.com&fromname=you](http://yourdomain.com/owa/service_directory/settings.php?email=you@yourdomain.com&from=yourdomain.com&fromname=you)

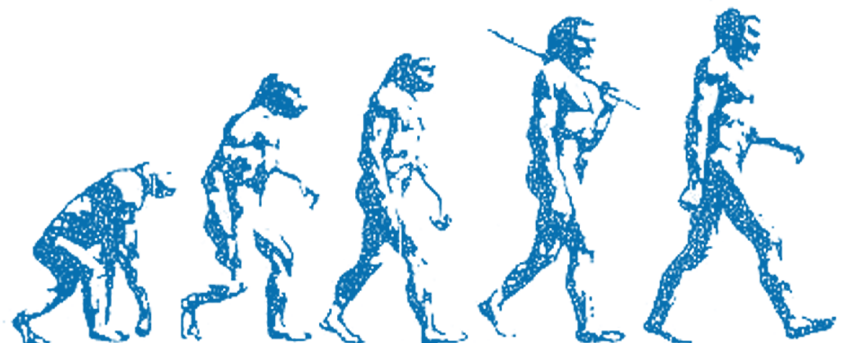

Best regards, yourdomain.com Technical Support.

--

This one is pretty cute, hiding a fraudulent website link behind the visible link.

Simply DELETE THIS EMAIL AND IGNORE IT!
